Fitek

Document digitalization

Technology

- Large format scanning - roller scanner
- Periodicals and thick books
- Plustek - Slides and Films
- Flatbed Scanner - Photo Negatives and Glass Photo Plates

Fitek

Segmentation

Creates segmentation frame at right angle and size for scanned image

docWorks has performed image segmentation analysis by assigning a polygonal "area" to each image element

The digitization operator has corrected the docWorks segmentation analysis errors. Each color of a polygon has a predefined value, such as blue = titles, yellow = paragraph, and so on.
Fitek

Segmentation

Digitization operator creates articles from polygons

Image OCR for one of the titles by docWorks

The digitization operator has corrected OCR errors made by docWorks

Process

- Darkness
- White gloves
- Delicate work

Digitising in future

Involvement in cultural heritage

AS FITEK has cooperation with several institutions related to cultural heritage

State Inspection for Heritage Protection

University of Latvia Academic Library

Friedrich Cander Space Research Museum

Latvian State Archive of Audiovisual Documents

Thank you,
Alvis Dimitris
